

RS STIER POLAR

Stier Polar is an indicator of the quality for the German working gloves. The glove is characterized by excellent thermal insulation.

elastic grain pig leather
mechanical resistance
and durability with
comfort during working

the leather after it's been
wet and dry does not
harden

the glove is suitable for use
in wet environments

trimmed with leather thumb
provides full protection for
your hand and extends the
life of the gloves due to the
protection of the most
vulnerable places on the
glove

Ins-Tech System
material with high thermal
insulation parameters

a rubberized hardened cuff
additionally protects the
forearm and allows to tuck
the protective clothing
sleeve in the glove
